

GUMMY ENL

NEW! ENL Gummy

Now with Leucovorin !

An affordable, great-tasting children's gummy, formulated for the **dietary management of ADHD**.

Balancing Brain Chemistry, Naturally

ENL Gummy provides a natural and safe approach to managing ADHD symptoms in children by targeting the root causes of biochemical imbalance, nerve transmission issues, and structural brain development . ENL Gummy normalizes and balances dopamine and norepinephrine neurotransmitters involved in attention, learning, and mood —helping promote emotional stability, focus, and enhanced cognitive function.

INGREDIENT LIST

Dosing: Ages 2–8: One (1) gummy in the morning, with or without food, for children who cannot swallow **or** EnLyte, an easy-to-swallow gelcap with no age restriction for older children.

Zinc Citrate:	6.7 mg

Did you Know?

Up to 75% of individuals with ADHD have a common genetic variation known as MTHFR, which can cause a wide range of symptoms. While hyperactivity, inattention, and difficulty focusing are well-known ADHD symptoms, many children also experience irritability, disruptive behavior, sleep challenges, anxiety, and depression. ENL Gummy supports the full spectrum of ADHD-related symptoms.

Why ENL Gummy ?

- **Now Contains Leucovorin!**
- MTHFR Formulated
- Natural & Safe
- No Artificial Colors or Sweeteners
- Great Tasting & Easy-to-Chew
