

The Professional's All-Natural Choice

EnLyte
Gel Cap
Once-a-day

EnBraceHR

EnLyte
Gummy
(Ages 2-8)

- FDA “Medical Food” Disease Claims: MDD/ADHD
- Placebo-Controlled Clinical Trials
- Low Side Effect Profile
- CNS Enhanced Coenzyme Absorption
- Proof in MDD/ADHD with MTHFR SNP
- Mono or Adjunctive Therapy Options

Complete Methylation Teams

Brain Bioactive B-Vitamin Coenzymes, Mineral Cofactors, and PS Omega 3s
Designed to Normalize CNS Biochemistry for MDD/ADHD Clinical Results

EnLyte/EnBrace HR Ingredients

Reduced Folates

L-Methylfolate Magnesium	7 mg
Folinic Acid	3.5 mg

B Vitamins in their Bioactive Coenzyme Form

B12 (Adenosylcobalamin)	50 mcg
B6 (Pyridoxal-5-Phosphate)	25 mcg
B1 (Thiamine Pyrophosphate)	25 mcg
B2 (Flavin Adenine Dinucleotide)	25 mcg
B3 (Nicotinamide Adenine Dinucleotide)	25 mcg
Bioperine (B Vitamin Bioenhancer)	500 mcg
Betaine (Trimethyl Glycine)	1 mg

Minerals in their Bioactive Cofactor Form

Magnesium Ascorbate	24 mg
Magnesium L-Threonate	1 mg
Zinc Ascorbate	1 mg
Ferrous Glycine Cysteinate	1.5 mg

Phospholipid Form — Brain-Ready

PS-Omega-3 (Phosphatidylserine, EPA, DHA)	23.3 mg
---	---------

Absorption Enhancer

Sodium Citrate	6 mg
----------------	------

Energizer

CoQ10	500 mcg
-------	---------

EnLyte Gummy Ingredients

L-Methylfolate Magnesium:	1.7 mg
Folinic Acid	1 mg
B12 (Methylcobalamin):	16.7 mcg
B6 (Pyridoxine Hydrochloride):	16.7 mcg
B1 (Thiamine HCl):	8.3 mcg
B2 (Riboflavin):	8.3 mcg
B3 (NAD):	8.3 mcg
DHA/EPA Omega Ahiflower Algal Oil Blend:	2.7 mg
Phospholipid (Phosphatidylserine):	25 mg
Magnesium Citrate:	16.7 mg
Zinc Citrate:	6.7 mg

Q. What is the difference between a vitamin and a vitamin coenzyme?

A. Coenzymes are in their final metabolized forms, making them ready to be the catalyst fuel for methylation production of biochemical endpoints.

Methylation Pathway

EnLyte/EnLyte Gummy, EnBrace HR, ENL provides all the downstream bio-active coenzymes, cofactors, and PS omega 3s needed to normalize and balance biochemical endpoints, which correlates into clinical remissions in depression/ADHD clinical trials.

Coenzyme/Cofactor/ PS Omega 3s Product Ingredients Maroon,
Biochemical Endpoints Green, Enzymes Purple, PPP SNP Incidences Blue

*Kennedy, David O. B Vitamins and the Brain: Mechanisms, Dose and Efficacy – A Review, Figure 2. The interlinked folate and methionine cycles.

"individuals with depression have significantly lower levels of folate than individuals without depression"

"CSF folate levels were deficient, despite adequate serum folate levels"

Correlation of Clinical Response With Homocysteine Reduction During Therapy With EnLyte/EnBrace HR in Patients With MDD Who Are Positive for MTHFR C677T or A1298C Polymorphism
Andrew Farah, MD

330 ADULT PATIENT RANDOMIZED DOUBLE BLIND PLACEBO-CONTROLLED STUDY

OBJECTIVE: This study was designed to evaluate the efficacy and safety of EnLyte/EnBrace HR as monotherapy in adults with major depressive disorder (MDD) who were also positive for at least 1 methylenetetrahydrofolate reductase (MTHFR) polymorphism associated with depression and further test the hypothesis that EnLyte/EnBrace HR will lower homocysteine in a majority of clinical responding patients.

NO SIDE EFFECT WAS REPORTED AT A GREATER RATE THAN PLACEBO

ONSET OF ACTION: 2 WEEKS

EnBrace HR For The Treatment and Prevention of Depression in Women Trying to Conceive and During Pregnancy

Marlene P. Freeman, MD et al, Annals of Clinical Psychiatry
February 2019 | FDA Approved

RESULTS

Patients did not relapse to a major depressive episode or state compared to 63% that did in the Cohen Comparator.

CONCLUSION

Study results suggest EnBrace HR is a novel and well-tolerated intervention with efficacy for the prevention and treatment of depression among women planning pregnancy and who are pregnant.

How To Prescribe

For Your Commercial & Cash-Pay Patients

Step 1

Visit Our Website:

www.enlyterx.com

Step 2

- Click the “Medical Provider” tab
- Click “Prescribe Now”
- Complete & submit the form

Inform the patient to expect a same-day call from one of our Patient Care Representatives to coordinate shipment of their 60-day introductory supply for \$60.

On the electronic form, be sure to check "Free Patient Consult" if you would like your patient to receive additional education about EnLyte.
